

Credit Awareness

Join Vice President of South Plainfield's TD Bank's Lucy Millan for a workshop on credit awareness.

The Program is designed to interact with the community to provide financial education resources for individuals learning how to have a better understanding of "their" finances.

Whether it is areas like creating a budget, living paycheck to paycheck or a first time home buyer TD can provide additional understanding on how to navigate the tools and programs available to our community. They have been providing these types of programs in the community for the past 20 plus years. Being able to interact with the South Plainfield community is important for TD.

Monday October 19th 11am

Visit southplainfield.lib.nj.us to register for this event. Once you have registered you will be sent the link to join the program.
