

WHAT YOU DON'T KNOW ABOUT IRA DISTRIBUTIONS CAN HURT YOU

Don't miss our upcoming **IRA distributions workshop**, where we will discuss strategies for **minimizing** your potential tax losses and **optimizing** your retirement.

If you're at or near retirement age, you'll soon have to pay taxes on your IRAs and other tax-deferred savings accounts. Taxes on required minimum distributions can be a major financial burden, unless you know how to protect yourself.

Most Baby Boomers can't afford a 50% tax penalty on withdrawals from their IRAs after age 70½. Making a bad decision can potentially cost thousands of dollars in benefits over the course of a lifetime.
